Workshops

Every week we introduce a technical topic related to cybersecurity and have you work with it.

Workshops are a time where members of all skill levels come and participate in hands on activities.

Topics this semester such as:

- Windows/Linux Red Teaming
- Security Automation
- Computer Forensics
- Cloud Security
- Encryption/Cryptography
- Firewall Adminstrating
- Much more!

Networking Opportunities

We connect members with professionals in industry.

Competitions

Red vs Blue, Capture the Flag,

- We attend 7 Competitions a semester
- Travel across east coast
- All Skill levels are welcome! Beginners to Advanced

One of the most notable competitions we attend is the National Collegiate Cyber Defense Competition (NCCDC) where we go against schools like Harvard and RIT.

P.S. We beat Harvard twice

Next Week.. Meet the Eboard!

Before we kick off a great semester, let us introduce ourselves..

- Internship Talk
- Questions for CDO?
- Kahoot

Also make sure to say Hi at the block party on Sunday!

<Call to Action Here>

Server Infrastructure / Black Team:

1. Did you ever manage your own minecraft server?
2. Like Linux?
3. Want to play around with a \$5k server?

If you answered yes to any of these...
you might want to **join our server team!**

Interest Groups:

1. Do you have a cyber/tech related interest/hobby?
2. Want to have us to the boring “club” stuff while you can just do your tech thing?
3. Want to have a small club without having to go through SA?

Start an interest group!
